The estimate sent to the chief engineer for R+B for sanctioning is for Rs 55,000 for the work in question

But it is not clear to which work the estimate for Rs 5,500 at "A" above relates the chief engineer may be requested to clarify this

The figure "Rs 5500" is evidently a mistake. It should be Rs 55,000/- as the estimate has been checked for that amount in the office of the C.E for R+B on 7/11/47

The site are proposed to be furnished with ... dispo dimensions

The scheme is said to be a self-supporting one & there is said to be keen demand for sites. Hence the layout of the block at V V Puram appears to have been taken up in anticipation of sanction.

The office is proposed to be met out of the Extension Funds at the disposal of the Trust Board the same being recouped as & when the sites are sold.

(2) In the above circumstances, the estimate for Rs 5500/- for the layout of the extension may be approved, as well as the action of the Chairman, C.D.A. in having started the work in anticipation of sanction.

Revised 29/11/47

(3) I agree. The estimate for Rs 5500/- may be sanctioned & the Chairman's action approved in the circumstances stated.

---

I have the honour to enclose herewith an estimate for Rs 58,000/- for the above work together with the necessary plans sanctioned by the Board in their Resolution No 127 dated the 24th September 1947

The report accompanying the estimate shows that the scheme is one of self-supporting nature and in view of the keen demand for sites as evidenced by daily receipt of large number of applications from the public, the work is proposed to be put on hand for execution immediately charging the expenditure to the amount available under Extension Funds and recouping the same as and when the realizations come up by way of sale of sites The work has, accordingly been commenced after calling for quotations, and entrusting the same at the lowest quotation rates Action taken may kindly be approved under the circumstances stated and sanction to the estimate may kindly be obtained and communicated very early
